BBSRC responsive mode and initiative success rates 2009-10 session

This document shows the success rates for applications to BBSRC for responsive mode and initiative research grant funding from HEIs and institutes of BBSRC over the year April 2009 to March 2010.

The figures have been calculated from all responsive mode and initiative grant applications considered by BBSRC Research Committees and Initiative Panels at meetings held between 1 April 2009 and 31 March 2010.

Success rates are shown by both number and value. The average success rate by number over this year was 22% based on both responsive mode and initiative applications. The overall success rate by value was 23% over the same period.

Grant institution	Responsive Mode and Initiatives				Responsive Mode and Initiatives		
	Number of grants			Success rate by number	Value (£K)		Success rate by value
