2. Residence Criteria
3. Qualifications Criteria
4. Enquiries

Issued February 2005 (revised October 2015)
BBSRC GUIDE TO STUDENTSHEIP ELIGIBILITY

SECTION 1: GENERAL INFORMATION

1. BBSRC offers opportunities for postgraduate training in areas relevant to its mission through a wide range of training awards. Full details can be found on the BBSRC website at http://www.bbsrc.ac.uk/funding/studentships.

2. **BBSRC does not make awards directly to students.** Training Grants are awarded to eligible research training institutions (university departments, research institutes and other bodies), and they are responsible for selecting students for these awards who meet the BBSRC eligibility criteria. This document provides additional information on the criteria for candidates’ eligibility for a BBSRC training award.

3. Heads of departments and supervisors who need advice on the application of the eligibility criteria to particular candidates should contact their university administrative authority (or equivalent in non-university organisations). Where there is doubt about a candidate’s eligibility the university administrative authority can contact the BBSRC for a ruling (email: postgrad.studentships@bbsrc.ac.uk). Whilst BBSRC will give general advice, a formal ruling will not be given without full written details of the candidate’s academic qualifications and residence, and a copy of their curriculum vitae.

4. University administrative authorities must adhere to the BBSRC eligibility requirements as laid out in this document. BBSRC will take action regarding reimbursement of funds from the institution where there is evidence of failure to comply fully with BBSRC’s conditions and procedures. BBSRC also reserves the right to withdraw or reduce studentship funding in future allocations.

5. BBSRC requires candidates who are selected for BBSRC training awards to satisfy two principal eligibility conditions:
   - Residence criteria
   - Qualifications criteria

6. Section 2 deals in more detail with the residence criteria, and Section 3 deals in more detail with the qualifications criteria. Section 2 also details whether the candidate is eligible for a full award (fees and stipend) or a fees only award.

7. Research Organisations are required to provide the BBSRC with standard information on students and their training programmes that are funded through BBSRC Training Grants and their training programmes through the Je-S Studentship Details (Je-S SD) for inclusion in the Research Council's management information system. Information should be entered within one month of the student starting their studies. Failure to provide this information may result in sanctions being imposed on future payments. Further details can be found in the *Terms and Conditions of Research Council Training Grants* that are available on the RCUK website at http://www.rcuk.ac.uk/funding/grantstcs/.

SECTION 2: RESIDENCE CRITERIA

**General**

8. The legal basis for defining residence eligibility for postgraduate training awards is set down in the *Education (Fees and Awards) Regulations 1997* (Statutory Instrument 1997 No. 1972) and subsequent amendments.
9. The residence eligibility criteria are satisfied in full if all three of the following conditions are met:
   (a) the candidate is settled in the UK i.e. is ordinarily resident in the UK without being subject under the immigration laws to any restriction on the period for which they may stay in the UK (see paragraph 10);
   (b) the candidate has been ordinarily resident in the UK and Islands for three years immediately prior to the date of start of their course;
   (c) not been residing in the UK wholly or mainly for the purpose of full-time education. (This does not apply to UK or EU nationals)

10. Persons whose documents carry a “Certificate of Entitlement to the Right of Abode” vignette authenticated with an official seal and persons, who have been granted Indefinite Leave to Remain (ILTR) by the UK Border Agency, are settled in the UK and fulfill criterion 9(a). They will be eligible for full awards if they fulfill the additional residence criteria [9(b) and 9(c)]. They may be required to present documentary evidence of their settled status (e.g. a passport or travel document bearing an appropriate stamp from the UK Border Agency, or an appropriate letter confirming their settled status).

**UK nationals**

11. Candidates who are UK nationals and who have lived all their lives in the UK will automatically satisfy all three residence criteria.

**EU nationals**

12. EU nationals are not required to meet residence criteria 9(a) and 9(c) and may qualify for full awards if they fulfill the residence criterion 9(b). Those EU nationals who do not fulfill criterion 9(b) may qualify for “fees-only” awards (see paragraphs 26-28).

**EEA and Swiss nationals**

13. Nationals of a European Economic Area (EEA) member state that is not part of the EU such as Iceland, Liechtenstein and Norway, together with Swiss nationals are free to live and work in the UK. However, they are not settled in the UK unless they have applied for and been granted settled status, and are therefore not eligible for funding. EEA and Swiss nationals who are resident in the UK may, however, be eligible for full awards as “EEA migrant workers” (see paragraphs 18-21).

**Students from the Channel Islands**

14. Students from the Channel Islands who have been ordinarily resident in the UK and Islands for 3 years immediately prior to the date of start of their course are eligible for a full BSSRC award.

**Students from the Isle of Man**

15. Students who are ordinarily resident in the Isle of Man will not normally be eligible for an award and should contact their Department of Education and Children for information on the support available to them. They may however be eligible for full awards if they have been ordinarily resident in mainland UK for three years immediately prior to the date of start of their course and if no part of the period of residence in mainland UK was wholly or mainly for the purpose of receiving full-time education.

**Periods spent living outside the UK**

16. Candidates who are settled in the UK may have spent periods living outside the UK and hence may appear to fail to meet criterion 9(b) above. However, their period of ordinary residence in the UK will not be regarded as having been interrupted by an absence caused by:
• the temporary employment outside the UK of the candidate, the candidate’s spouse, or the candidate’s parent, guardian or other person having care of the candidate while the candidate is under 18;
• the temporary full-time education outside the UK of the candidate or spouse;
• a period spent outside the UK during a student’s gap year.

17. Candidates should produce evidence to indicate that their absence from the UK did not interrupt the period of ordinary residence. Institutions should consider each case on its merits, taking into account of, amongst other things:
• the nature and duration of the absence;
• whether the absence was wholly or partly determined by people other than the candidate e.g. was as a consequence of temporary periods of employment abroad of the candidate’s parent or spouse or of full-time education abroad of the candidate’s spouse;
• evidence that the candidate returned at the earliest opportunity;
• whether links were maintained e.g. through regular visits or vacation work.

UK Armed Forces personnel on active service abroad, and their children and spouses, are regarded as ordinarily resident in the UK.

**EEA migrant workers**

18. EU/EEA and Swiss nationals working in the UK (including UK nationals who have taken up employment in the UK after living in an EU/EEA country or Switzerland) are classified as “EEA migrant workers”.

*Note: Government guidance is that an EEA or Swiss national is generally entitled to be classified as a migrant worker for a period of six months from their arrival in the UK where they have arrived in the UK without work but are actively seeking employment.*

19. EEA migrant workers, and their spouses, children and stepchildren may be eligible for full awards provided that:

(a) at the time of the start of the course the candidate, or their spouse, parent or step-parent, was working in the UK;

(b) the candidate was ordinarily resident in the UK at the start of the course;

(c) the candidate was ordinarily resident within the EEA or Switzerland for the three years prior to the start of the course, other than wholly or mainly for full-time education.

20. A person could lose EEA migrant worker status if:

• employment is ancillary to their studies i.e. taken up with a view towards engaging in subsequent studies

• they left work voluntarily without good reason

• they left work to begin a course of study which had no link to their previous employment.

21. Candidates need to provide evidence of their migrant worker status, e.g. a copy of the contract of employment supported by a letter from their employer confirming the information provided by the candidate. Institutions should take into account relevant advice provided by the Department for Business, Innovation and Skills (BIS).
Refugees and asylum seekers who have been granted leave to remain in the UK

22. A candidate who has been granted refugee status by the UK Government, or is the child, stepchild or spouse of a refugee, is eligible for a full award provided that they have been ordinarily resident in the UK and Islands (apart from temporary absences) since being granted refugee status. Refugees do not have to meet the normal three years’ residence requirement but become eligible for an award immediately after being granted refugee status.

23. Prior to 1 April 2003 the Home Office granted “exceptional leave to enter or remain” (ELE/ELR) to some unsuccessful asylum seekers. From 1 April 2003 the Home Office replaced the granting of ELE/ELR with Humanitarian Protection (HP) or Discretionary Leave (DL). Although persons granted ELE/ELR, HP or DL are not settled in the UK, they are eligible for full awards provided that they meet the usual three-year residence requirements [criteria 9(b) and 9(c)] on the first day of their course.

24. Candidates must provide official documentary evidence of their refugee, ELE/ELR, HP or DL status, normally in the form of a letter from the UK Border Agency.

25. A student who becomes recognised as a refugee by the UK Government, or who is granted ELE/ELR, HP or DL, after the start of their course (or a student who is the spouse, child or stepchild of such a person) becomes eligible for an award from the payment date immediately following the award of refugee status.

“Fees-only” awards

26. EU nationals (including UK nationals) who fail to qualify for a full award under the UK residence criterion 9(b) or the EEA migrant worker criteria are generally eligible for awards restricted to the payment of tuition fees only; no maintenance award is payable. In order to be eligible for a fees-only award, the candidate must be an EU national (or the child of an EU national) who has been ordinarily resident in a member state of the EEA (including the UK) or Switzerland for three years previously other than wholly or mainly for full-time education. Candidates who are nationals of EEA countries which are not member states of the EU (Iceland, Liechtenstein and Norway) or Switzerland are not eligible for fees-only awards.

27. The residence criteria which apply to determine eligibility for a full award, including the consideration of temporary or occasional absences, apply to fees-only awards with substitution of the EEA and Switzerland for the UK.
Currently, the member states of the EU are:

SECTION 3: QUALIFICATIONS CRITERIA

General
29. Candidates for BBSRC training awards must normally hold a first or upper second class UK honours degree, or the equivalent qualifications gained outside the UK, in an appropriate area of science or technology. The ROs are expected to comply with the guidelines on the selection and admission of candidates in the QAA’s UK Quality Code for Higher Education - Chapter B11: Research degrees.

30. Below provides guidance on equivalence for non-UK qualifications; on enhancement of lower class degrees by further postgraduate qualifications and/or relevant work experience; and on circumstances when unclassified or unexpectedly low degree results can be accepted.

Equivalence
31. Degree qualifications gained from outside the UK, or a combination of qualifications and/or experience that is equivalent to a relevant UK degree, may be accepted. In both cases, it will be necessary to ascertain whether these qualifications can be equated to an honours degree, and at what level. We advise that ROs use the National Academic Recognition Information Centre (NARIC) database to ensure that qualifications are of the appropriate level.

Enhancement
32. As a general rule an undergraduate degree below, or below the equivalent of, a UK upper second class honours degree is acceptable if accompanied by one of the following enhancements:
   - a postgraduate Masters degree in a relevant subject will enhance a first degree by one step (e.g. from a lower second to an upper second). A second postgraduate Masters degree will not, by itself, constitute a further step; it can, however, be regarded as postgraduate work experience (i.e. one year Masters equates to one year's relevant postgraduate work experience);
   - completion of 3 years full-time equivalent relevant postgraduate work experience will enhance a first degree by one step, and 6 years or more experience by two steps. ‘Relevant’ employment is regarded as employment which is relevant either to the first degree or to the proposed course of postgraduate study. For example, a graduate in computer studies who has been employed as a computer programmer will have relevant employment experience;
   - employment undertaken before the completion of undergraduate study does not count for the purposes of enhancement.

33. Four year UK first degrees denoted as 'Masters’ e.g. MChem are undergraduate degrees and provide no automatic enhancement.

34. BBSRC expects to see evidence that universities have appropriate processes in place for the exercise of judgment in making such assessments, bearing in mind the responsibility to properly assess the suitability of a candidate for a research degree programme.

Unexpectedly low degree results
35. Candidates, who did not sit their final undergraduate examinations due to a certificated illness, may in some cases be awarded an aegrotat degree. Also, illness or other adverse personal circumstances may result in a candidate attaining a lower than expected level of degree. In these cases, the candidate may have the ability to undertake postgraduate training, and the university should assure itself that:
• the candidate was suffering from specific health conditions or adverse personal circumstances in the period prior to or during the exams; and
• the candidate’s performance during previous years of study was such that they would have been expected to have achieved the appropriate level of degree; and
• the examination procedures did not allow for the adverse conditions to be taken into account.

SECTION 4: ENQUIRIES
